

COVID 19 Policy

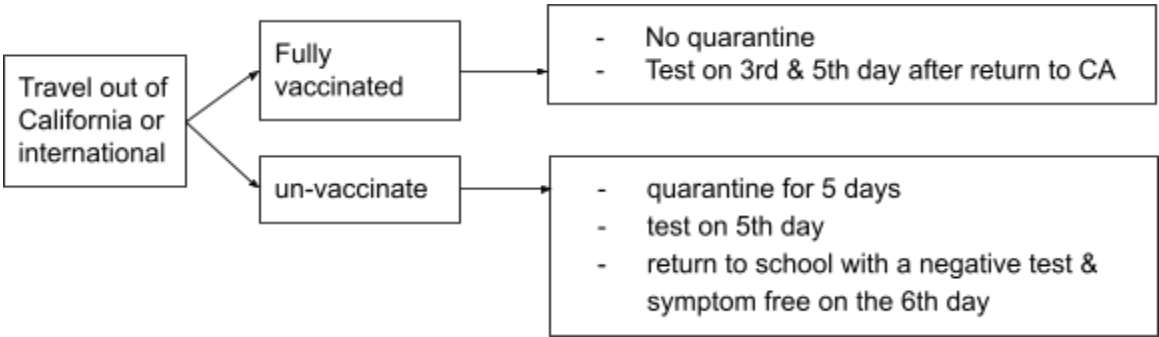

updated: 8/16/2022

Travel Policy During COVID-19

The policy applies to anyone who has traveled out of California - Domestic or International:

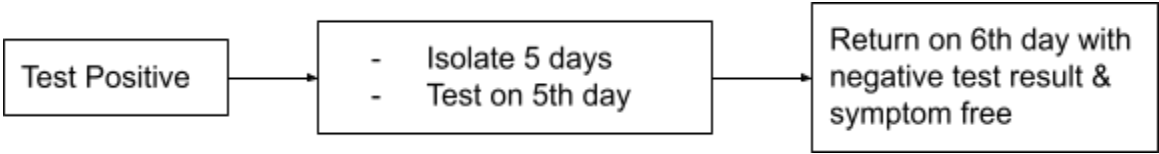

Persons Fully Vaccinated: No need to quarantine; need to self-monitor for symptoms; take antigen test on 3rd day AND 5th day after return to California

Persons Unvaccinated - quarantine for 5 days after travel and test on 5th day; can return to school with a negative test on the 6th day

Isolation (Tests Positive for COVID-19)

Staff, students, and parents regardless of vaccination status who test positive for COVID-19 will need to be isolated for 5 days and take a home antigen test on the 5th day; May return to school with a negative test on the 6th day.

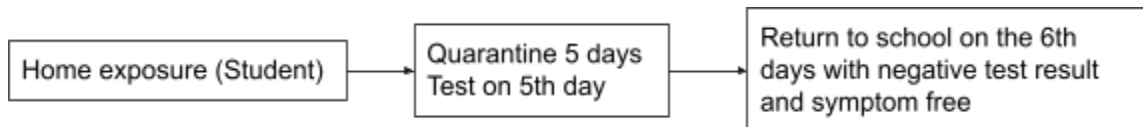

Quarantine (Exposure to COVID-19)

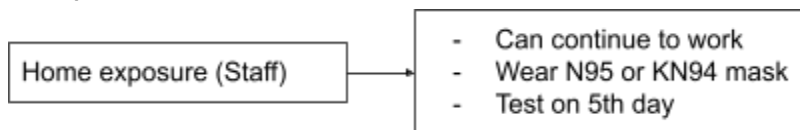

Staff and students who are asymptomatic after exposure to Covid-19 outside of the home setting may return to school. The group will be asked to take a home antigen test upon notification of exposure AND on the 5th day of exposure.

Students who are exposed to Covid-19 at home are required to quarantine for 5 days and take a home antigen test on the 5th day of exposure. May return to school on the 6th day of exposure with a negative test result.

Staff with home exposure will follow updated [CDC guidelines](#) to continue work and wear N95 or KN94 masks to school and take a home antigen test on the 5th day of exposure.

Having symptoms of COVID?

Following recommendation from the [FDA](#) on use of home antigen tests, **ALL** persons with Covid symptoms need to take a home antigen test on the day symptoms appear. **AND** take another test again after 48 hours.
